Board of Supervisors,
Ulster County, N. Y.

Gentlemen:

We are writing this letter to notify you that as of March 1st, 1946, the Uptown Business Men's Association, will officially disband.

We have enjoyed the privilege of assuming the responsibility for the operation of the parking lot in the rear of the Court House. It is our hope as merchants affiliated with our new Chamber of Commerce of Kingston, to arrive at a method which will assure the continuance of the parking lot for the convenience of the public.

Our only suggestion for the continuance of this service to the public, would be to offer the privilege to some citizen of Ulster County to act as an attendant and develop its operation in a manner prescribed by the Board of County Supervisors.

It is hoped that this matter can be brought to an early conclusion to continue parking facilities for the people of Ulster County and vicinity.

Sincerely yours,

KINGSTON BUSINESS MEN'S

Dear Mr. Stang:

Enclosed herewith you will find a copy of a letter addressed by the Mayor to the Common Council of the City of Kingston, with reference to the consolidation of the City of Kingston Welfare District and the Ulster County Welfare District, and a certified copy of a resolution adopted by

unanimous vote of the Common Council with reference to the above matter.

Very truly yours,

LEO P. FENNELLY,
City Clerk.

CITY OF KINGSTON, NEW YORK
William F. Edelmuth, Mayor

March 5th, 1946

To The Honorable,
The Common Council,
Kingston, New York.

Gentlemen:

I am in receipt of a communication from the Board of Supervisors dated March 2nd, 1946 with regard to the dissolution of the City Welfare District of the City of Kingston, and the merger of the City Welfare District with particular reference to Senate Bill Int, 1169, Pr. 1277 and the Assembly Bill, Int. 1141, Pr. 1535, which I inclose herewith. Your honorable body had petitioned the legislature that such action be taken. The Board of Supervisors of this County has indicated a willingness to consent to this change in the law for the merger of both Welfare Departments if the City would agree at the regular meeting of this Council in July 1946 by resolution duly adopted and approved to elect to function effective January 1, 1947 under option 3 as contained in Title 3A of Article 3 of the Social Welfare Law as added by a chapter of laws of 1946, entitled, "An Act to amend the Social Welfare Law Generally."

As a further condition for the consent of the Board of Supervisors, it will be required to transfer to the Ulster County Welfare District without consideration, or to lease for a nominal sum, effective January 1, 1947, the City Home, including all of the furniture and equipment and supplies and personal property hereinbefore used by the City Welfare Department.

It is my opinion that the request of the Board of Supervisors should be granted. However, I do not recommend that there be any absolute consent or any transfer of the personal property presently owned by the City of Kingston and utilized by the Welfare Department, but on the other hand a lease or rental agreement for a nominal sum should eventually be authorized and made which will permit the County Welfare De-

partment to use all of such real or personal property so long as we continue to operate under option 3 as stated in the Senate and Assembly Bills hereinbefore referred to. Accordingly, I ask your honorable body that a resolution be presently adopted to the effect that it is the sense of this Council that there should be a dissolution of the Kingston City Welfare District and a merger with the Ulster County Welfare District effective January 1, 1947, and that in the month of July 1946, this Council will convene and then adopt a resolution electing to function under option 3 of the law hereinbefore described and that the City of Kingston will lease for a nominal sum to the County Welfare District the real and personal property effective January 1, 1947, and so long as option 3 may be in operation.

Yours very truly,

/S/ W. F. EDELMUTH,
Mayor.

RESOLUTION

Offered by Alderman Coughlin.

Seconded by Alderman Buboltz.

Resolved, that it is the sense of this Council that it is to the best interest and welfare of the City of Kingston that the City Welfare District of the City of Kingston be dissolved and that it be merged with the County Welfare Department and to the end that such dissolution and merger be effected, it is

Further Resolved, that this Common Council at a meeting to be held in the month of July, 1946, will have introduced and will pass and recommend to the Mayor of the City of Kingston for approval, a resolution to be forwarded to the Ulster County Board of Supervisors for its concurrence, electing to function, effective January 1st, 1947, under option III as contained in Title 3A of Article 3 of the Social Welfare Law as added by chapter of laws of 1946 entitled "An Act to amend the Social Welfare Law, Generally," said merger and resolution to be effective commencing January 1st, 1947, and be it

Further Resolved, that upon the resolution of the City Welfare District of the City of Kingston and its merger with the County of Ulster Welfare Department and commencing January 1st, 1947, that the City of Kingston prior to said date will agree to transfer to the Ulster County Welfare Department by a lease agreement for a nominal consideration effective January 1st, 1947, the City Home, including all household furniture and equipment, live stock, food and all other personal property used by the City of Kingston Welfare Department and in its possession as of January 1st, 1947, together with all office and filing equipment, case records and other records and documents used or utilized in connection with the

administration of public assistance and care in the City Home, except that there shall be reserved to the City of Kingston and/or to the Board of Education of the City of Kingston, the use of that portion of the City Home which is presently being used and occupied in connection with the conduct of a canning school by the City of Kingston and the Board of Education; the term of said lease to be for such period of time as relief and public assistance shall be furnished in accordance with provisions of option III.

Approved by the Mayor the 6th day of March, 1946.

WM. F. EDELMUTH, Mayor.

Submitted to the Mayor by the City Clerk the 6th day of March, 1946.

I, Leo P. Fennelly, City Clerk of the City of Kingston, N. KINGSTON CHAMBER OF COMMERCE
KINGSTON, NEW YORK

April 10th, 1946

Mr. Edward E. Murray, Chairman
Ulster County Board of Supervisors
Pine Bush New York

Dear Mr. Murray:

The Board of Directors of the Kingston Chamber of Commerce at its meeting on Tuesday evening, April 9th, passed the enclosed resolution

which we would appreciate your submitting to the next meeting of the County Board of Supervisors.

The resolution covers your proposal to construct a new highway between Woodbourne and Ellenville on New York State Route #52 and also urges the improvement of State Highway #28 from West Hurley to the county line.

Reports of action or definite plans for these projects will be awaited with interest and given support by the Kingston Chamber of Commerce.

Respectfully yours,

KINGSTON CHAMBER OF COMMERCE,
DONALD F. WILLIAMS,
Executive Secretary.

Whereas, the Board of Supervisors of Ulster County have proposed the construction of a highway between Woodbourne and Ellenville on New York State Route #52, and

Whereas, this road at the present time is very narrow and dangerous, causing traffic to use a circuitious route which adds considerable time and mileage to motorists and motor freight moving into Ulster County from U. S. Highway #17, and

Whereas, property values in the southwestern part of Ulster County have shown a consistent decline which this improved highway would check,

Therefore, Be It Resolved, that the Kingston Chamber of Commerce endorses the construction of the Woodbourne-Ellenville Road, New York State Highway #52, as proposed by the Ulster County Board of Supervisors, at as early a date as it is possible to obtain materials for such a project, and further, be it

Resolved, that the Kingston Chamber of Commerce recognizing the need for the extension of an improvement of State Highway #28, recommends that the road between West Hurley and the county line in the vicinity of Highmount, be improved in the very near future.

Adopted by:
Transportation Committee and
Board of Directors of the
Kingston Chamber of Commerce

Date—April 10th, 1946.

your Board to appropriate an additional sum of $4,800? This will provide for eight typists from July 1 to December 31 at an annual salary of $1,200.

Your favorable consideration of this request is earnestly solicited.

Gentlemen:

On July 27th, 1945 Ulster County Bridge No. 80 spanning the Plattekill Creek on the division line between the Towns of Mamakating, Sullivan County and Shawangunk, Ulster County was destroyed by the passage of a truck owned by Santini Brothers. A claim was presented to said

Santini Brothers by the attorney for the County of Sullivan and it appears that the best settlement that he has been able to make in the matter is one in the sum of $556.50. I concur in the recommendation of the County Superintendent of Sullivan County in the thought that it would be to the interest of both counties if this amount was accepted as final settlement and would, therefore, recommend the same.

Court House, Kingston, N. Y.

Gentlemen:

In accordance with Chapter 305 of the Laws of 1946 the maintenance of state highways would include the control of snow and ice and the erection of snow fence at suitable locations on state highways and provision has been made whereby the county might, if so elected, by the Board of Supervisors, perform the work of such control of snow and ice through the office of the County Superintendent of Highways upon such terms, rules and regulations as may be agreed upon between the Board of Supervisors and the State Department of Public Works.

I would therefore recommend that a resolution be adopted by your Honorable Board authorizing the Chairman of the Board of Supervisors to enter into an agreement with the State Superintendent of Public Works of the State of New York for the performance by the County of Ulster of the work of control of snow and ice on the state highway within the boundaries of this county under the terms, rules and regulations as may be agreed upon between the State Superintendent of Public Works and the Board of Supervisors as recommended by the County Superintendent of Highways.

Respectfully yours,

J. F. LOUGHRAN,
County Superintendent.

STATE OF NEW YORK
STATE COMMISSIONER OF CORRECTION
ALBANY 1, N. Y.

August 9, 1946

Clerk
Ulster County Board of Supervisors
Kingston, N. Y.

Dear Sir:

The State Commission of Correction has approved the enclosed report of inspection of the Ulster County Jail, Kingston, dated June 20, 1946.

Kindly advise what action is contemplated regarding the recommendations therein.

Very truly yours,

PAUL D. McGINNIS,
Secretary.

ULSTER COUNTY JAIL—KINGSTON

Inspected June 20, 1946, George C. Smith, Sheriff.

The staff consists of the undersheriff, seven jailers, cook and clerk. At least two male officers are on duty in the day and three at night, and the wife of the night jailer is matron. During any temporary absence of the matron, the sheriff's secretary acts in her stead.

The jail is a three story stone building and contains 59 cells—46 for males and 13 for females.

There were 31 prisoners detained at the time of inspection, classified as follows:

	Male		Female	
	Adults	Minors	Adults	Minors
Awaiting Court Action	12	..	..	..
Serving sentence	18	..	1	..
	30	..	1	..

At the time of inspection one adult prisoner was in the hospital under court order.

The highest number of prisoners at one time since November 28, 1945 was 41 in May, and the lowest was 16 in February. The monthly average was 31.

All prisoners were properly classified as required by the county laws.

The records were up-to-date and in order.

The old metal piping and fixtures in the six showers are being replaced with modern equipment and concrete floors are being laid. Four cells are completed and the two remaining are completed with the exception of the concrete floors.

All corridors are being newly painted and pilot lights have been installed for the utility corridors as was recommended in previous reports of inspection.

The last report of inspection recommended: (1) That steps be taken to install modern smuggle-proof visiting booths. This matter is being studied with the other improvements to the building. (2) That the practice of locking city police prisoners in the basement of the county jail be discontinued. This has been complied with.

The sheriff said the bull pen is now used when unclean intoxicated cases are admitted.

A new oil-burning water heating system was recently installed and is an improvement over the old style coal burning type.

The detention quarters for males and those for females were clean and in order at the time of inspection with the exception of some accumulated papers in the bunks and some stale bread in the section for males. The condition of the mattresses, blankets, pillows, sheets and pillow cases in use was satisfactory but some cells were without sheets and pillow cases. It is understood that effort is being made to obtain these articles and that they will be provided as soon as possible. Some toilets and lavatories are of old niche type but were clean as possible and necessary sanitary supplies were on hand. No contraband was found in the cells. All locking devices were in working order.

Inmates are employed in and about the jail at regular maintenance work and it was stated they are under the supervision of an officer when working.

Meals are prepared by a civilian cook and a ten day menu is followed. The noon meal was satisfactory on the date of inspection. The kitchen, refrigerators and storerooms were clean and foodstuffs on hand properly stored. A copy of the most recent ten day menu was submitted for the file.

There is a regularly appointed jail physician on call. Inmates are not examined at the time of admission but as soon as possible thereafter. Emergency cases are taken to the hospital at Kingston at the direction of the jail physician. There is an adequate supply of drugs on hand and a record is maintained for the doctor's prescriptions to the prisoners.

Breaches of discipline are punished by locking in cells and deprivation of privileges. There have been no unusual violations recently.

Visits, conducted in the main entrance corridor, are permitted on Tuesday and Saturday from 2 P. M. to 4 P. M. The prisoner is locked in and the visitor is on the outside. An officer or matron is always present at the visits, which are of ten minutes duration and records are maintained. This is not a proper method of visiting and more satisfactory arrangements should be made, as recommended in previous reports of inspection.

Mail and packages are censored and searched for contraband and records are maintained.

No regular religious program is in progress but any inmate may have a clergyman upon request.

Two copies of the Commission's Regulations for the Management of County Jails were left with the sheriff.

Recommendations

1. That steps be taken to install more satisfactory visiting facilities.

2. That efforts be made to replace the remaining niche toilets with modern vitreous integral toilets.

Respectfully submitted,

GEORGE H. CULVER,
Senior Inspector.

COUNTY OFFICERS' ASSOCIATION
STATE OF NEW YORK

October 3, 1946

To All Clerks of Boards of Supervisors:

In order that you may determine the amount to be placed in your county's budget covering membership in the County Officers' Association

for the year 1947, you are hereby notified that the sum is $150.00, based on the reported assessed valuation of your county.

This method of calculating has been used very successfully for the past years to determine the fair sum contributed by each county toward the support of our association.

In most cases, the sum will be the same as last year. However, where an increase in valuation reaches a certain bracket, there will be that much of an increase over the amount contributed last year. We are able to maintain the present rate of these contributions even though your association contemplates greater activities in the interest of good county government than heretofore.

Your secretary would be very much pleased to receive your remittance during the month of January, 1947.

Any questions you have in regard to the above will be cheerfully answered.

Sincerely yours,

DONALD C. SCRIBNER,
Executive Secretary.

P. S. We would greatly appreciate your placing this in the hands of your County Budget Director or Board Finance Committee.

STATE OF NEW YORK
DEPARTMENT OF PUBLIC WORKS
ALBANY 1

October 7, 1946

Board of Supervisors of Ulster County:

Re: Agreement for control of snow and ice on State Highways pursuant to Chapter 305 of the Laws of 1946.

Gentlemen:

This refers to the proposed Agreement including Rules and Regulations, which were forwarded to you several weeks ago, and also to the

letters of Modification and Information of August 28 and September 16, 1946, respectively. A number of conferences have been held with representatives of several counties concerning objections to various provisions in the papers that are based upon technical and legal reasons. At the direction of Superintendent Sells, an exhaustive study of all these objections has been made, and consultation has been held with the State Comptroller and with representatives of the Attorney General.

This is to inform you that Superintendent Sells has decided to modify the agreement according to the new form that is inclosed.

You will note in the 2nd and 3rd "WHEREAS" that the performance of control of snow and ice is delegated to the county and that the county by reason thereof is acting as the arm of the State in this undertaking. Paragraph 3 of the agreement refers to the County as "an adjunct to the State in performing the function" delegated to it by the State according to Rules and Regulations which are herewith submitted for examination by your Board. It should be noted that the Rules and Regulations while made part of the agreement by paragraph 3, are in a separate pamphlet. Representatives of a number of counties prefer this separation of the papers.

Another primary change in the form will be found in paragraph 21 of the Rules and Regulations which provides that under the general heading of "REIMBURSEMENT" the State shall defend and indemnify any county, town or village in case of a tort claim arising out of the manner of performance of the functions of snow and ice control. The practical administration of this paragraph dictates the placing of its provisions in the Rules and Regulations. These provisions will require the municipality to forthwith notify the Superintendent of any claim or demand because of negligence in performance. Further, these particular provisions are not subject to change or modification, and are not intended to create any liability in favor of outside parties against the State or the municipalities if such liability is not already existing by statute.

Herewith are four sets of the Agreement and two sets of the Rules and Regulations. If these forms are found to be agreeable, it is recommended that the resolution as prepared in the Agreement pamphlet, or a resolution substantially the same, be adopted by your Board. The authorized representative of your Board should then sign three sets of the Agreement; the seal of your Board should be affixed thereto; the acknowledgement should be signed by a Notary Public; and your clerk should certify to the copy of the resolution contained in the agreement pamphlet. These three sets of the Agreement pamphlet should be re-

turned to this office; the fourth set should be retained for your file. Please return one pamphlet of Rules and Regulations.

If your Board accepts the Agreement in the manner above suggested, then at the earliest opportunity there should be filed with this office a certificate of the insurance coverages as called for in paragraph 20 of the Rules and Regulations. Any town, village or sub-contractor which will participate in the program of snow and ice control in your county pursuant to paragraph 2 of the Agreement, should furnish your office with a certificate showing similar insurance coverage on equipment. Superintendent Sells intends to obtain protective liability coverage for the benefit of the State and for each county that participates in the control of snow and ice under the Agreement.

Time being of the essence in this matter, it is hoped that your Board will act with all reasonable speed.

Very truly yours,

V. L. OSTRANDER,
Superintendent of Operation in Maintenance.

Director of Contracts and Accounts.

VETERANS' MEMORIAL HOSPITAL
ELLENVILLE, N. Y.

November 13, 1946

Board of Supervisors of County of Ulster
Kingston, New York

Gentlemen:

For several years your Board has made an annual appropriation to the Veterans' Memorial Hospital of Ellenville, New York in the amount of two thousand five hundred ($2,500.00) dollars. Each year this sum of money has been expended for the aid and relief of poor people requiring hospitalization in this area.

The Veterans' Memorial Hospital is a membership corporation organized under and by virtue of the laws of the State of New York, it's certificate of incorporation having been filed in the Ulster County Clerk's Office on September 18th, 1923. The hospital was named and erected and in maintained as a memorial to the veterans of World War One. We anticipate continuing the same as a memorial to the veterans of World War One and World War Two.

The object of Veterans' Memorial Hospital is the care of the sick, No person is denied admission to our hospital for any reason whatsoever. Like all hospitals which hold their doors open to anyone in need of its services regardless of race, color, creed or financial means, the Veterans' Memorial Hospital necessarily operates at a large annual deficit.

I need not call your attention to the fact that since the end of the war the cost of food, labor and all other commodities has increased. Consequently the actual cost of hospitalization per patient day has risen considerably. The amount legally allowed for welfare cases defrays less than half the expenses required for the maintenance of the poor who qualify for welfare benefits. Iu addition to the welfare cases a certain cross-section of our population in the lower income brackets are simply unable to afford to pay for hospitalization when it is required. Some of these patients make a noble effort to pay at least a part of the cost. In the past we have been able to defray the expense for the hospitalization these poor people to a great extent because of your annual appropriation.

It has probably already come to the attention of your Board that we made application by a petition to the New York State Department of Social Welfare, for a certificate authorizing this appropriation.

In closing we earnestly petition your Board to make an appropriation in the sum of at least two thousand five hundred ($2,500.00) dollars to assist Veterans' Memorial Hospital in caring for the poor and indigent patients.

Very truly yours,

VETERANS' MEMORIAL HOSPITAL,
ROBERT V. STAPLETON,
President, Board of Directors.

Gentlemen:

In my experience in the removal of obstructions caused by snow on the State and County Roads, I am convinced that it would be to the County's interest to possess and own a Rotary Snow Plow. I am advised by the Good Roads Machinery Company of New York, Incorporated, that they have on hand such equipment, the total cost delivered to Kingston being in the sum of $24,502.00.

It is therefore requested and recommended that your County Superintendent of Highways be authorized to negotiate and complete the purchase of this machine in order that an early delivery might be accepted.

CITY OF KINGSTON LABORATORY
KINGSTON, N. Y.

November 15th, 1946

Mr. James A. Simpson
Clerk of the Board of Supervisors
Ulster County Court House
Kingston, N. Y.

My dear Mr. Simpson:

The Board of Managers of the City of Kingston Laboratory at a meeting held today considered the Laboratory budget for the coming year. The most important item for consideration was the question of establishing in the Laboratory a Sanitary Chemistry Department which will have control of the sanitary examinations required by health officials in the control of milk and water supplies and sewage disposals. This new department is expected to be in charge of an outstanding Sanitary Chemist with a Bacteriologist to assist him in the work. There is at present, an unequipped room in the Laboratory building which is admirably suited for the location of this new Department and it will not necessitate additions to the present structure. The matter of equipping such a department requires considerable funds as you will note in the budget. It was the unanimous voice of the Board that this new department should be created in anticipation of the work which will be required by the County Board of Health soon to be established.

The total estimated cost of equipment and operation for one year is approximately thirteen thousand dollars ($13,000.00). This action was

also approved by Mayor William F. Edelmuth who sat with the Board in his ex officio capacity. It is hoped that this action will be pleasing to the Board of Supervisors.

In our work report previously submitted you will note that there has been a marked increase in the number and value of the public health examinations made in the laboratory over those of last year. This increase is no doubt due, in a large part, to more adequate medical coverage of the citizens in the County as a result of our returning medical service men. The estimated cost, as in previous years, is merely a figure arrived at as in the past. It is well to recall that no charge are made for laboratory services other than those connected with the supplying of blood to any indigent patients or those cared for by the Welfare Agencies throughout the County. Furthermore, it should be restated, perhaps, that no laboratory charges are made for such cases when they enter the hospitals of the City.

An additional and very valuable service, but seldom used at present is that of affording laboratory examinations to any and all patients at a price well within their capacity to pay for them. Upon consultation with the attending physician and the laboratory Director such charges may be adjusted as indicated.

At today's meeting the whole price structure for laboratory examinations in the hospitals was reveiwed and it was decided that at the present time, at least, these charges were far too low in relation to other lines of endeavor and should be adjusted upward. It was decided by the Board of Managers that there should be a universal minimum charge of $2.50 to all patients who enter the hospital as regular admission. The maximum charge to be applied toward patients $5.00. To those patients in semi-private rooms there will be a maximum charge of $25.00 and no patient, including private patients will be charged more than $50.00 however such service the Laboratory may be called upon to provide. With this adjustment of fees in the hospitals it is believed that the Laboratory revenue will markedly increase affording still wider service, better paid laboratory staff and enable the Laboratory to procure more and more efficient workers.

It should be brought to your attention that every effort is being made to cooperate with the State Blood Bank program which it is expected soon will be launched. Details of this setup are not yet available but will be made known to your Honorable Body as soon as the plan is formulated and released.

Following the consideration of the Budget the Board of Managers decided to respectfully request the Board of Supervisors to appropriate for laboratory purposes the sum of fifteen thousand dollars $15,000.00 for the year 1947; one-half of which would be reimbursed by State Funds. You will realize at once, that this is an increase from twelve thousand dollars $12,000.00 to fifteen thousand dollars $15,000.00 or at net increase to the County expenditures of fifteen hundred dollars $1,500.00. Such an appropriation would also afford the laboratory the full amount of State Aid which is now available under the present law.

The Board of Managers of the Laboratory wish to take this opportunity of thanking the Board of Supervisors for their long and splendid record of cooperation with the City in establishing and maintaining an excellent laboratory service.

Very truly yours,

J. SPOTTISWOOD TAYLOR, M. D.,
Director.

STATE OF NEW YORK
DEPARTMENT OF HEALTH

November 22, 1946

Mr. James A. Simpson, Clerk
Ulster County Board of Supervisors
Court House
Kingston, New York

Dear Mr. Simpson:

I have heard that several of the supervisors may be planning to omit expenses for a local health officer from their next year's town budget. I thought it would be desirable at this time to call to their attention the fact that they must take definite action together with their town boards to abolish their town or village health department before they may omit such expenditure from their budgets. Under the Public Health Law a local health officer is hired for a term of four years. The fact that Ulster County has established a health department now makes it possible for any supervisor and town board to take action to abolish

the local health department. However, unless such formal action is taken a local health officer whose term is still running is legally entitled to the usual fee.

In the event that any local health officer's term of office expires it will not be necessary for the town board to take any action regarding abolition of the local health department. They have the choice of either reappointing the individual for a four year term, or failing to take any action whatsoever in which case the local health department automatically terminates.

As I have told several of the supervisors on different occasions it is our feeling that as the county health department develops only two or three local health officers will be needed. These few local health officers could then be put on the county pay roll. However, it seems desirable at this time to point out the danger of a sudden widespread abolition of local health departments throughout Ulster County while the county health department is being started.

I shall be glad to discuss this matter with any of the supervisors who may be concerned over the legal implication of their local health department.

Very truly yours,

GEORGE JAMES, M. D.,
District State Health Officer.

Whereas, the City of Kingston, while the above described legislation was pending in the legislature, by resolution duly adopted, signified its desire to take advantage of the provisions of said proposed legislation and to qualify thereunder on and after January 1, 1947 and specifically to qualify to select to operate under Option 3, and

Whereas, in pursuance of such expressed desire of the City of Kingston appropriate legislation was introduced at the 1946 session of the legislature which proposed the dissolution of the City public welfare district on December 31, 1946, and which would have permitted the City of Kingston beginning January 1, 1947 to operate as a City in a County Public Welfare District and which would further authorize the City of Kingston to make a selection of Option 3, and

Dear Mr. Simpson:

Enclosed is a copy of a resolution unanimously adopted by the Common Council of the City of Kingston at a meeting held December 3, 1946.

This resolution offers to convey to the County lands owned by the City for the establishment of a Tumor Clinic when the County adopts a program for the construction and establishment of a Tumor Clinic.

Very truly yours,

RAYMOND A. McANDREW,
City Clerk.

Resolution offered by Alderman Buboltz.

Seconded by Alderman Zucca:

Whereas, it has been proposed by the Ulster County Medical Society that there be established in the City of Kingston, and County of Ulster a Tumor Clinic and that a site be acquired and a building be constructed for such purposes, and

Whereas, it is the sense of this Common Council that the establishment of a Tumor Clinic will serve the general health and welfare of the residents of the City of Kingston and the County of Ulster and vicinity, and

Whereas, it has been indicated to this Council that the County of Ulster contemplates the construction of a building to serve as and to house a Tumor Clinic and that such Clinic should be centrally located and integrated with the facilities of the Kingston City Laboratory, and

Whereas, the City of Kingston owns certain lands in front of and adjacent to the Kingston City Laboratory on Broadway in said City which would appear to conform with the requisites a modern Tumor Clinic should have, and

Whereas, this Council has been informed that said location would be acceptable for the construction and establishment of a Tumor Clinic, now therefore be it

Resolved, that the City of Kingston offer to convey to the County of Ulster at such time as said County of Ulster formally adopts a program for the construction and establishment of a Tumor Clinic and appropriates funds therefor, so much of the lands owned by the City of Kingston in front of and adjacent to the Kingston City Laboratory on Broadway in said City as may be necessary and required for the construction of a building to house said Tumor Clinic and to establish the same, and upon condition further that the said proposed Tumor Clinic conform with the recommendation and requirements of the State Health Department and such other agencies, if any, whose approval may be required, and be it

Further Resolved, that a copy of this resolution be forwarded to the Clerk of the Board of Supervisors and to Dr. Francis E. O'Connor as Chairman of the Cancer Committee of the Medical Society of the County of Ulster.

Submitted to the Mayor by the City Clerk the 4th day of Dec., 1946.

To the Honorable Board of Supervisors:

Enclosed you will find the Farm Bureau financial statements for 1946 and the budget for 1947. In addition, a brief report of the 1946 Farm Bureau activities is attached.

You will note that the budget includes an appropriation item of $5,400.00 which is the same as the appropriation for 1946. We trust that your honorable body will grant this appropriation again for 1947.

Very truly yours,

BRIEF SUMMARY REPORT OF THE FARM BUREAU DEPARTMENT OF THE ULSTER COUNTY FARM AND HOME BUREAU AND 4-H CLUB ASSOCIATION FOR 1946

November 1, 1946

To the Honorable Board of Supervisors:

As requested, a brief summary report is hereby submitted for the Farm Bureau Department of our county association. A complete de-

tailed report, for the fiscal year ending November 30, is prepared for the executive committee and the Extension Service. It will be on file at the Farm Bureau Office and ready for inspection at any time.

The office at 74 John Street in Kingston served as a headquarters for agricultural interests of the county and served farmers in a wide variety of ways. Several thousand bulletins were distributed free and over 6,000 persons stopped in at the office during the year. Over 8,000 telephone calls, both incoming and out-going, were handled. In most cases advice or council was sought regarding some phase of farming or gardening.

The end of the war brought a big reduction in emergency activities, but Selective Service Boards requested reports on several hundred registrants. In most cases a farm visit was required to make an accurate report. Only about 35 veterans sought information about farming. In some cases the purchase of a farm was involved. In too many cases the veteran had already purchased a farm which was not suited to his needs or desires.

With a better than average production season, labor requirements this year were higher than last year. Through the labor program about 260 foreign workers were brought into the county. About 145 were employed all season by the Ulster Vegetable Growers Co-op. and housed at Camp Hayden. The remainder were contracted for by the Mid-Ulster Growers Co-op., mostly fruit growers, and quartered in private housing. About fifty New York City youth lived and worked on farms in the county.

The Ulster County Artificial Breeding Association showed a large growth during the year. This association was given a great deal of assistance because of the value of their program in improving the quality of dairy cattle. So many calls for service were received that the directors had to organize a second division. One serves the upper end of the county with Rosendale as the headquarters and the Southern division is serviced from Newburgh. Two fulltime inseminators are now employed. The one technician bred over 1,100 cows in the first 8 months of this year.

After a lapse of over two years, a supervisor was found to handle the Wallkill Valley branch of the Dairy Herd Improvement Association. This man resigned after four months, but a successor was again found. Therefore, both branches of this association are now completely full with several dairymen on the waiting list to become members. The record

work of this association is most important to the entire breed improvement program. The monthly reports are published regularly in the Farm Bureau News.

The acute feed shortage last spring had a minimum effect on production due to the concerted and cooperative effort of all feed dealers in the the county. There was some liquidation of poultry due to a shortage of feed, but the minimum feed requirements of most commercial poultrymen were met. Excellent pasturage minimized the shortage on dairy farms.

The Farm Bureau Poultry Committee worked hard and was successful in having the State Veterinary College locate its new branch laboratory in Kingston. This will be of great value to Ulster County and Hudson Valley poultrymen.

The spray information service was available for fruit growers. About 1,000 growers are on the fruit lists. The assistant agent handling the fruit work resigned on June 1. His successor only stayed two months. After one month without an assistant, Walter Baran was employed to carry on this work.

Considerable assistance was given the Ulster County Agricultural Society in staging the County Fair and Farmer's Field Day after a lapse of four years. The fair will distribute $3,784.35 to residents of Ulster County for their exhibits.

In 1946 the Farm Bureau had a paid membership of 1,294 at $5.00 each.

Respectfully submitted,

ALBERT KURDT,
County Agricultural Agent.

The Honorable Board of Supervisors
Court House
Kingston, New York

Gentlemen: You will find enclosed the revised 1946 budget of the Ulster County Home Bureau and the proposed budget for 1947.

Our organization has been developing over a period of years to the point that one agent can no longer handle the work. We had 830 paid members in 1946; to date 707 are paid for 1947 and we anticipate 1,000 members before the membership year closes. We find it necessary to employ an assistant if we are to keep up with the demands.

Although the state will provide $1,500 towards the salary of an assistant agent, we will be responsible for the remainder of her salary, for additional stationery and supplies, demonstration materials and a car. To cover these increased costs we find it necessary to request $6,500 for 1947, an increase of $2,000 over last year.

We hope you will feel justified in making this appropriation. If you have any question regarding our work, we will be glad to meet with your group.

Respectfully,

ALICE B. VAN LEAR,
(Mrs. Arnold),
County Chairman.

ULSTER COUNTY EXTENSION SERVICE
4-H CLUBS
74 JOHN STREET, KINGSTON, N. Y.

November 12, 1946

The Honorable Board of Supervisors
Court House
Kingston, New York

Gentlemen: The Financial Statement for the period of November 1, 1945 to October 31, 1946 and the Budget for 1947 for the 4-H Club Department of the Ulster County Farm and Home Bureau and 4-H Club Association are attached.

The Ulster County 4-H Club Department at this writing has 398 girl members. Our present agent, Edmund R. Bower has built up the 4-H Clubs in the County to the extent that his time should be spent with the boys and supervision. We need a woman assistant agent to work with these girl members and as the State of New through the 4-H Club Department at Cornell University is ready to pay her entire salary from a Federal appropriation which they have for this purpose. The Committee of which I am chairman has prepared a Budget large enough to pay her expenses including a car for her use, so she can visit the clubs that are scattered over all parts of the County. The counties adjoining us, that is,

Greene, Delaware, Orange, and Dutchess, all have an assistant woman agent. We feel our County should take advantage of the Federal funds which have been appropriated for this purpose, but the County has to pay expenses and etc. before these funds are available.

We have kept this proposed Budget down to a minimum, and we trust that your Board will approve it so this worthwhile work can be carried on.

Sincerely yours,

PRATT BOICE, Chairman,
Ulster County 4-H Club Executive
Committee.

ULSTER COUNTY FARM AND HOME BUREAU AND 4-H CLUB ASSOCIATION

4-H CLUB DEPARTMENT

ANNUAL REPORT SUMMARY 1946
4-H CLUBS—1946

4-H Club work is a Peace time as well as a War-time Youth movement. Membership is absolutely free to any boy or girl of any race, color, or creed in any part of Ulster County. The 4-H Club Budget does not receive any money except the Board of Supervisors appropriation. The 4-H Club Program has gone on into Peace time with 909 members enrolled. A greater number of this enrollment is girls. There are more Homemaking Clubs than Agricultural Clubs.

This past year, as in previous years, there has been no 4-H Youths in difficulty with the Juvenile Delinquency Department.

35 boys and girls own Purebred Holstein calves, purchased from adult Holstein breeders in this area. 98 other boys and girls own purebred animals of other breeds as well as non-purebred dairy animals. This year, 15 boys and girls purchased calves for foundation animals.

199 girls were enrolled in the Clothing project. 39 girls displayed their garments in the local dress revue, six at the district dress revue, and three went onto State competition.

291 4-H members own and care for 25,026 birds. Their record shows good earnings in the Poultry project.

205 girls and 18 boys took instruction on Food Selection and Preparation and Preservation. Their work has saved many, many dollars in the family budget. Their work has raised the standard of living in their homes as well as a more healthful diet.

418 boys and 291 girls have been enrolled in garden projects. The war years taught a lasting lesson. Gardens were a great success.

43 boys and girls raised and liberated 297 pheasants. Their part in wild life conservation has brought new blood to the present pheasant population. The work was interesting, and they have learned the principles of growing wild life.

15 girls have worked with Home and Room Improvement. Rearrangement of furniture, better arranged wardrobes along with better health conditions gives a happier girl.

47 family pigs were raised, which means 47 families will have more meat than in the war years.

3 boys grew Baby Beef steers for the first time. One steer went on to Dutchess County and placed third in a ring of 10 animals.

The minor projects; potatoes, sheep, goats, bees, rabbits and horses report a satisfactory year's work.

Again, the families of these 4-H Club members, are grateful to the Ulster County Board of Supervisors for their cooperation with the new York State College of Agriculture and Home Economics, and the United States Department of Agriculture.

Respectfully submitted,

E. R. BOWER,
County 4-H Club Agent.

ULSTER COUNTY HOME BUREAU

HIGHLIGHTS OF THE YEAR'S WORK

December 1, 1945-November 30, 1946

The educational program of the Ulster County Home Bureau in 1946 was carried on in 33 organized groups with a membership of 831, compared to 29 groups in 1945 with a membership of 613. 808 memberships for 1947 are now in the office, and the membership year does not close until June 1.

Participation in the program has grown steadily over a period of years. It seems fair to conclude from this that the program has tended increasingly each successive year to fulfill its purpose, that is to bring to women those helps in homemaking which they consider most pertinent to their success and happiness.

In addition to the activities within the organization, hundreds of individuals were given help on particular problems. Parts of the program were shared with Mother's Clubs. P.-T. A.'s and Granges and cooperative activities were carried on with the Kingston Canning Center, Public Health Associations, and Committees on the Control of Cancer and Infantile Paralysis, the United Nations Association, the United Nations Relief and Rehabilitation Administration, the Ulster County Agricultural Society and the Ulster County Farm Bureau and 4-H Club.

Meetings reached an all time high; 1,218 were held with an attendance of 15,673. 762 of these were conducted by local leaders who took on an amazing amount of responsibility to lighten the load of the home demonstration agent.

36 training schools with an attendance of 423 were conducted by specialists, county leader and home demonstration agent.

There was more publicity sent out from the office and from local units than in former years. Both county and city newspapers gave splendid cooperation as in the past years. The broadcasting station gave time for a weekly program and the station most cordially made announcements when requested to do so.

Exhibits of work shown in villages in May, at the Advisory Council, at the Ulster County Fair and at the annual meeting included handmade gloves, hooked mats, refinished furniture, braided rugs and stencilled hitchcock chairs.

Homemakers found the three lessons on menu making especially helpful for they included instructions on how to maintain a high nutrition standard for the family, suggestions on overcoming shortages and a list of short cuts that proved to be time savers. Besides using the recipes frequently themselves, they passed them on to 193 others.

Interest continues in the discussions of child development and family life. 17 clubs are now active, each of which is following a course of its own choosing to best meet the needs of members. The specialist in Child Development and Family Relationship met with all the study clubs on a district basis last winter. This fall the newly appointed specialist visited 4 clubs and gave assistance on discussion materials and methods. About 100 people attended the Family Life Institute held in New Paltz in October.

Ulster County was represented by 26 women who attended the two day Family Life Conference in Albany in May. 171 study club meetings were held during the year with 2,008 present.

The project on citizenship entitled "The World We Live In" is growing in popularity as more of us recognize our responsibility to be well informed on what goes on in the world about us. One good that came from the war is that it brought far distant places closer and we find we are interested in the people who live there, their ways of life, their problems.

Through the year leaders have led 35 discussions on "Problems of Peace", the GI Bill of Rights, "Every Woman an Informed Voter", "We All Pay Taxes, Do We Know What For?". Speakers addressed women at county wide meetings on "India", "The Palestine Problem" and "World Citizenship for Women".

Ironing, formerly the most disliked household task, bids fair to lose that reputation as the result of one of the most enjoyable as well as profitable lessons taught in years on making ironing easier. This lesson so captured the attention of women that a demonstration at the Ulster County Fair drew a crowd all day. It is reported that information on this subject has been passed on to acquaintances and friends all over the United States.

Homemakers say they liked the lesson on making washing easier, with directions on how to get the best results from soaking clothes, spot and stain removal, soaps and water softeners.

Many activities took place in the field of clothing during the year. There were lessons on tailored finishes; a few units reviewed the work on mending and pressing; one unit devoted five lessons to good grooming.

The first handmade leather gloves took the women of the county by storm. 34 classes, taught by local leaders, who in turn received training from the county leader were held through the year; 349 pairs of gloves are now reported finished.

A local home economist taught 124 women the fundamentals necessary to make the most of their sewing machines such as the adjustment of the tension, the lengthening of stitches in relation to the material to be used, etc. 34 received the second lesson on the use of attachments.

Leaders were trained to teach the making of the better cotton dress by the specialist and agent. Classes in the units are just getting under way. Articles for the home and ideas for Christmas gifts, assembled in a kit and sent to all units, were widely copied. Individuals, report 349 articles completed.

82 hooked mats of beautiful design and pleasing colors were made under the instruction of leaders who spent a year with the specialist preparing themselves for the teaching.

All during the war women wanted to make slip covers but there was no material on the market. Now Ulster County homemakers are going ahead; local leaders attended training schools during August and September and the slip covers they made are most professional looking. Leaders taught classes in New Hurley and Kripplebush where 14 chairs of various types were attractively slip covered.

Lessons on the refinishing of furniture were repeated in Ellenville, Lake Katrine, New Paltz, Milton, Sawkill and Woodstock by leaders who

attended the training schools conducted by the agent. 89 pieces of furniture were refinished.

It would be hard to find a more enthusiastic group of leaders than those who are attending the training schools given by the specialists on the stencilling of hitchcock chairs and Boston rockers. Their chairs are completed and they are now working on a set of patterns for the county. They say they have never done anything that gave them so much joy as the stencilling; they are recommending it to release tension, and to build self confidence.

A few units continue to study Ulster County History and a few are gathering folklore.

One unit studied home nursing under the capable instruction of a trained nurse. The district health officer addressed two units on the control of cancer.

The specialist in landscape design conducted five district meetings where he outlined fundamentals of landscape design and good planting as they applied to the home grounds visited. The county leader gave a demonstration on winter bouquets at the Y.W.C.A. Two units held demonstrations on flower arrangements. Unit members made 284 Christmas decorations last year.

Respectfully submitted,

EVERICE PARSONS,
County Home Demonstration Agent.

At the meeting of our Civil Service Commission on October 7, 1944, we accepted and incorporated in our minutes the following resolution which was adopted by your Honorable Board on July 19, 1944. The resolution reads as follows:

"Whereas, the Ulster County Civil Service Commission is vested with the power and duty to hold competitive and non-competitive examinations for Civil Service Positions, for original appointments and promotional appointments in the County of Ulster, and

"Whereas, many of the young men and young women of Ulster County are in the military service of our Country. and for that reason would be unable to take such examinations and thus qualify for such positions, and

"Whereas, it would be unpatriotic and unjust to deny these young men and women an opportunity to participate in these examinations and thus qualify for these positions because they are serving in the Armed Forces of our Country,

"Now, Therefore, Be It Resolved, that it is the sense of the Board of Supervisors that all competitive and non-competitive original appointments or promotional appointments in the County of Ulster should be on a temporary basis and only for the duration of the war and six months thereafter, and that all examinations should be delayed until such time as the war is over and these Ulster County War Veterans have returned home, so that they may have an opportunity to exercise their rights as citizens of Ulster County, to participate in competitive and non-competitive examinations for original appointments and promotional appointments.

"The above resolution not only protects the Civil Service rights and Civil Service benefits of all the men and women of Ulster County who are, or were in the military service of our country, but will allow them to compete for these Civil Service positions upon their return home."

We feel that the above Resolution has served its purpose and would ask that your Honorable Board give thought to rescinding same thereby giving us permission to continue with our Civil Service Examinations.

We wish to thank our County Attorney, Mr. Frederick H. Stang for his legal assistancé and guidance during this past year.

The Commission again wishes to express its appreciation for the complete cooperation it has received from the Honorable Board of Supervisors.

Respectfully submitted,

THE CIVIL SERVICE COMMISSION,
BENJAMIN H. MATTESON, Chairman,
PRATT BOICE,
JOSEPH M. DEYO,
THOMAS BOHAN,
Executive Secretary and Examiner.

REPORT OF WORK DONE IN CHILDREN' COURT OF ULSTER COUNTY FROM NOVEMBER 1, 1945 TO NOVEMBER 1, 1946

To the Honorable, the Board of Supervisors of the County of Ulster:

Gentlemen: Attached hereto is the statistical data of the work of the Children's Court of Ulster County from November 1, 1945 to November 1, 1946.

During the period covered by this report the Court disposed of 197 formal cases and 25 informal cases. A formal case is one in which a petition is filed and the case scheduled for hearing and determining by the Court. An informal case is one that is adjusted without the filing of a petition.

A comparison with last year's report reveals an increase in the number of delinquency cases handled this year, both formal and informal, a slight increase in the number of physically handicapped cases, an increase in the number of adult cases and very substantial decrease in the number of neglect cases. Last year 70 formal and 10 informal delinquency cases were disposed of. This year 93 formal and 23 informal delinquency cases

were heard, an increase of 23 formal and 13 informal delinquency cases. Neglect cases decreased from 44 last year to 11 this year. Physically handicapped cases increased this year only by 4. As to the adult cases, last year 42 adult cases were disposed of; this year 58 formal and 1 informal adult cases were concluded.

In the delinquency cases, most of the children adjudged to be delinquent were placed on probation to the Chief Probation Officer. Only 6 were committed to institutions.

In the neglect cases, both of the children adjudicated to be neglected were committed to the custody of a public department or officer for placement.

Most of the adult cases were what is known as "support proceedings" in which petitions were filed by wives or other interested parties charging a husband or father with not providing adequate support for his wife and minor children. In these cases the majority of the respondents were directed to contribute to the support and maintenance of their families. Thirteen men were brought before the Court for failure to comply with the order of the Court and were either fined, committed to jail or placed on probation.

One order of adoption was signed and consent to marry was granted to two girls under the age of sixteen years but over the age of fourteen.

I take this opportunity to acknowledge with thanks the assistance and cooperation rendered to this Court by the Children's Workers of both the City and County Departments of Public Welfare, the Probation Officer, the Sheriff and his staff, State Police, City Police and various Police Departments throughout the County.

In conclusion, permit me to express my personal appreciation to your Honorable Body for the generous support and cooperation given to the Court.

Dated, November 1, 1946.

Respectfully submitted,

JOHN M. CASHIN,
Judge of the Children's Court
of the County of Ulster.

REPORT OF THE WORK DONE IN PROBATION IN THE COUNTY AND CHILDREN'S COURTS OF ULSTER COUNTY, NEW YORK

November 1, 1945 to October 31, 1946

To the Honorable John M. Cashin, Judge, County and Children's Courts, Ulster County, N. Y.

Your Honor:

I submit herewith annual report of the Ulster County Division of Probation for the period beginning November 1, 1945 and ending October 31, 1946.

During the past year there has been an appreciable increase in the intake service case load, both in the County and Children's Court. During this busy year, the sympathetic and active cooperation, which I have at all times had, from Your Honor is hereby acknowledged with deep appreciation. It has been a pleasure to work with you in our common endeavor, namely, the rehabilitation of children and adults through Probationary supervision.

Appreciation is also acknowledged to the following agencies for their active and intelligent cooperation: the Sheriff and his staff, City and State

Police Departments, City and County Departments of Public Welfare, the Clergy of all faiths, Catholic Charities, Volunteers of America, the City and County school officials, and the State Department of Correction, Division of Probation.

It had been anticipated that the amount of monies collected through this department would decline somewhat this year by reason of the fact that allotment checks have been discontinued and war wages have terminated; actually, however, the collections this year show an increase over last year. For the sake of comparison, Probation collections are listed for the past few years, beginning with the year 1940:

Year	Amount
1940	$ 1,479.23
1941	5,809.99
1942	11,856.72
1943	16,850.90
1944	18,020.25
1945	22,839.61
1946	25,489.59

The collections for 1946 were as follows:

Account	Amount
Restitution	$ 1,113.84
Special	513.00
Family Support	23,862.75
Total	$ 25,489.59

Note: Item titled "special" is amount received for physically handicapped children, payments made by parents.

It is believed that part of the increase in collections is due to the fact that the number of support proceedings coming before the court have increased, but your officer is convinced that a considerable amount of the increase is due to the fact that it has been possible to make a more concentrated effort on the account of arrears. This attempt to bring accounts up to date and keep them that way has only been possible because of the fact that the Honorable Board of Supervisors of the County of Ulster saw fit to provide a fulltime Stenographer-Typist for the Probation Department. Grateful appreciation is hereby acknowledged for this provision, and we wish to acknowledge the efficient and intelligent service of Miss Dorothy Van Bramer.

COMMISSIONER OF JURORS
COUNTY OF ULSTER
COURT HOUSE, KINGSTON, N. Y.

November 12, 1946

To the Honorable Board of Supervisors:

Since the office of Commissioner of Jurors has been established I think the Jury System has been greatly improved.

In the year of 1945 before the office was created it was necessary to draw 634 Jurors and 44 Talesman in order to get enough Jurors to take care of the courts. This year it was only necessary to draw 379 Jurors and no Talesman and each term of court had many more Jurors and better Jurors.

In 1945 it was necessary to draw 180 Grand Jurors. This year it was only necessary to draw 139.

I think this is not only a great saving in money but I think we are getting a better type of Juror.

At this time I would ask your Honorable Board to raise $100.00 for expenses etc., of the office.

(Signed) FRANK J. McCARDLE.
Commissioner of Jurors.

REPORT OF COMMITTEE ON PUBLIC HEALTH NURSING

To the Honorable Board of Supervisors:

Durnig the past year the public health nursing committee held six meetings at which time members heard reports from the county nurses on their activities. In addition, discussions were held by the district health officer and supervising public health nurses regarding the public health problems in Ulster County. Because of the dire need for public health nurses, members of the committee decided to recruit nurses from graduating classes of the Benedictine and Kingston Hospitals. During the month of September individual letters were sent to each new graduate

explaining opportunities for training under State stipends and the need for public health nurses in Ulster County.

In January 1946, the last State nurse was taken on the county-nurse position. There are now a total of 9 county public health nursing positions on a county-wide basis. At the present time 3 of these positions are filled with qualified public health nurses. The staff this year has been depleted due to personal illness and return to school for special training. The already highly organized branches of nursing service of Ulster County, such as, child health conferences, dental corrective work, the tuberculosis public health nursing program and other activities which require the services of qualified public health nurses were seriously threatened. The remaining nurses doubled their territory and were given assistance with the bedside nursing work by supplementary nurses paid through State funds. Throughout the past year 7 such nurses have been employed. In addition, 3 public health nurses were assigned to Ulster County for summer relief work; 2 in Ellenville and 1 in Shandaken.

More than 5,000 nursing visits were made to the sick in their homes. 3,000 visits were made in behalf of children, with more than one-third of these visits to infants under one year of age. This is significant in relation to the opportunities the nurse has in helping to start many new babies on the road to a healthy life. Well nourished and protected against preventable diseases through the teaching which is done in these families and the encouragement to keep children under regular medical supervision.

A large part of the public health nurses' work includes home visits to the expectant mother, at which time the nurse helps to promote better maternity care through teaching of personal hygiene, the need for regular care by the family doctor and how to prepare for the coming of the baby. Wherever the mother expects to be confined at home the nurse is available for assistance to the physician at the time of delivery. Subsequent care of the mother and baby are provided and whenever possible demonstration of this care is given to a helper in the home who is able to carry on good nursing care throughout the day. A total of 592 visits were made in behalf of maternity patients.

In addition to the general health teaching which is done, public health nurses because of their training and experience, in many instances, were able to uncover serious health problems, sometimes hardly recognized by the family; e. g. recently, a public health nurse discovered a 3 months old infant with symptom of a wry neck which the mother believed was due to sleeping on one side. The need for medical care was stressed

which resulted in correct diagnosis of an orthopedic condition and a recommendation for treatment made, which is being carried out by the nurse.

Tuberculosis public health nursing is an important part of the work done by nurses throughout the county. 500 home visits were made to tuberculosis patients, contacts and suspects, at which time home care was given where indicated and teaching about the prevention and spread of the disease was made available. In some instances the nurse has been helpful in effecting sanitorium care as recommended by the physician. Bi-weekly X-ray clinics are held at the Ulster County Tuberculosis Hospital. One public health nurse assists at each clinic with history taking and teaching to the patients.

There are now a total of 9 child health conferences served by county-wide nurses throughout the county in the following locations: Towns of Esopus, Olive Bridge, Accord, Phoenicia, East Kingston, New Paltz, Modena, Wallkill, Woodstock.

76 child health conferences were held with a total attendance over 1,200 examinations made. In addition to the general examination given by the clinician public health nurses utilized every opportunity to assist the mother in planning for improved physical and mental health for the child. All clinics are being enriched in content with nutrition services provided by the Ulster County Tuberculosis and Health Association and through dental phophylaxis provided by the New York State Department of Health. At the present time a demonstration of visual testing is being made at the Woodstock and New Paltz clinics.

The dental program has expanded this past year. Several additional towns were able to provide more dental service through use of private dentists. Dental trailer clinics were held in town of Shandaken, Ulster and Rochester with a total number of 56 children receiving completed correction.

The orthopedic program has expanded. All county public health nurses are now participating in the case-finding program. During the year four orthopedic clinics were held with a total attendance of 225 patients. The aim of this program is to assure provision for the diagnosis, treatment and supervision of all patients with certain types of physically handicapping conditions. It includes direct service by the orthopedic nurse who is able to give physical therapy treatment to patients whether under the care of a private physician or the orthopedic clinic which is conducted

four times a year in Ulster County. In addition to specialized service by the orthopedic nurse the county public health nurses were able to give nursing service to many orthopedically handicapped who do not require specific physical therapy treatment.

Communicable disease nursing is an important branch of the nursing service. Much emphasis has been given on the prevention of diptheria, smallpox and whooping cough, through clinics held in various sections of the county under the direction of the local health officer and at the child health conferences.

When the nurse goes into the home of a patient ill with communicable disease she is able to give nursing care as requested by the family physician and demonstrate how to isolate the patient in order to prevent further spread of the infection to those within the household as well as to the community.

A large part of the communicable disease program includes nursing service to patients with syphilis and gonorrhea. In many instances the nurse is able to locate those who have been exposed to these infections and convinces them of the need for medical diagnosis and treatment.

Bedside nursing care is given to persons acutely ill in the home with pneumonia, postoperative surgical dressings as well as those afflicted with chronic diseases such as stroke, cancer, heart conditions and other crippling diseases. In most instances the nurse is able to demonstrate this care to a capable member of the family. All county public health nurses work under the direction of the family physician who is responsible for the care of the patient. They also work under the general direction of the health officers who organize prevention clinics.

It is hoped that during the coming year additional qualified nurses will be appointed to the staff and a more rounded-out public health nursing service will be given to the citizens of Ulster County.

Dated, November 15, 1946.

ALBERT N. COOK,
HENRY BATTENFELD,
Committee.

Arrears in Pay	2,642.25
Insurance	4,951.20
Burial Allowance	433.92
Total	$ 81,391.49

The total cases handled during the year is the largest in the history of the bureau and was an increase of 432 per cent over the previous year.

The total of veterans' personal case folders on file is 6,187.

The total pensions paid veterans in the county annually which were applied for through the agency as per close of October 31, 1946 is $262,545.65.

The handling of educational and vocational cases and government life insurance cases was largely done by the two state counsellors affiliated with the agency. The number of such cases handled reveals the volume of work involved.

Educational and vocational	4,088
Government Life Insurance	2,319

Medical-care cases alone totaled over 700. The especial attention given by the agency to medical-care and hospitalization cases is doubtlessly unsurpassed in the State and the physicians throughout the county

have come to rely upon the agency for prompt handling of such cases. This also is true in respect to Out-Patient Treatment cases, a service rapidly expanding due to the fact that veterans may now be treated at home by physicians of their own choice. A record of such cases is kept by the agency and has proven of inestimable value to the veteran or his dependents, as veterans of World War I have discovered. That is the reason the agency consistantly strives to impress upon the veterans of Ulster County the importance of having all their applications clear through the agency. The veteran's case folder is available to none except himself or by written order and the records are kept in locked fireproof cabinets. Further, the agency has close contact with every veteran organization Post Service Officer in the County and enjoys a definite cooperative effort on their part. The Division Service Officers of the veterans organizations represent the veteran at the hearings of the veteran's case before the Veterans Administration, if veteran so desires.

Another item of importance to veterans is the fact that the agencies main office never closes at noon-hour Monday through Friday, is open Saturday until noon and Friday nights until 9 o'clock. Service is available 24 hours a day for emergency cases. If Kingston 1111 does not answer then Saugerties 440-R, Ellenville 158-W or Rosendale 3980, are on call.

For the convenience of veterans residing some distance from Kingston, the agency maintains a branch office in Ellenville, Saugerties and Highland. The Ellenville office is open Monday, Tuesday, Thursday and Saturday. 9 to 5 on Monday and Thursday, 9 to 12 A. M. and 7 to 9 P. M. on Tuesday and 9 to noon on Saturday. The Saugerties office is open on Wednesday from 10 to 4 and Highland office is open on Friday 12 to 7 P. M. The same dependable service is rendered at all three branch offices as that at the main office in Kingston.

The thorough service the agency renders to widows and dependent parents of veterans, invariably brings forth an expression of their gratitude.

Your director has been in charge of the county service for veterans since its inception in 1939. One principle to which he has consistently held fast is prompt and thorough service for the veterans. That an individual veteran's case or that of a dependent's is equally as important as the next and though such a policy may at times incur waiting his turn the veteran inevitably feels rewarded.

As to the future, in ten years the requirements of the veterans of the county will be practically as numerous as they are today. Medical attention and hospitalization cases will increase considerably as will pension cases and burial cases, to say nothing of the handling of applications for Federal and also State bonuses when legilsation for such is enacted. In fact, as veterans grow older, service required for them increases, and it should be remembered that the dependents of veterans are entitled to benefits in many cases. If the average offspring of veterans is two and the average number of other dependents is two, wife and parent, the approximate number of veterans of World War II alone and their dependents which may look to the agency for service runs up to 44,000 which with World War I veterans and Spanish-American War veterans with their total dependents figured as averaging two, increases the number to 53,000 which allowing for deaths, leaves the potential number of 52,800.

No case is considered by the agency as completed until that for which the veteran or his dependent applied, is actually received, and if at first disallowed, then in such case further effort is made if the facts warrant. In no few instances, the agency has worked over a period of two to three years on cases with the result that the veteran finally won out.

It has been the policy of the bureau to keep all Posts of the veterans organizations in the county informed as to the current activities of the agency. However the tremendous task upon the agency this past year in handling the avalanche of returning veterans prevented these organizations being kept informed by the usual medium of newspapers in the county. During the ensuing year, this duty can be resumed.

It is doubtful that any office in the county grew as rapidly in so short a period of time as did the veterans agency. Naturally such involved unusually large expenditure for fixtures, equipment and supplies. With exception of supplies, requirements for the ensuing year will be but a small fraction of the year just ended.

The agency expresses its thanks for the interest taken and assistance rendered by the Honorable, the Board of Supervisors, during the year.

Respectfully submitted,

HARRY R. KARNAGHAN,
Director.

COMMISSIONER OF PUBLIC WELFARE
CHILDREN'S DIVISION REPORT

November 1, 1945-October 31, 1946

Board of Supervisors of Ulster County,
Kingston, New York.

Gentlemen:

To the Honorable Board of Supervisors, the Children's Division of the Ulster County Department of Public Welfare submits this report of its activities and expenditures for the period from November 1, 1945 through October 31, 1946.

From November 1, 1945 through October 31, 1946, the Ulster County Children's Division has had under care an average of 271 children each month. These children are cared for in foster homes, institutions, or supervised in their own homes, depending upon the individual situation of each child and what will best meet his needs and those of his own family.

On October 31, 1946 a total of 249 children were under care. Of those under care 100 are in boarding homes, 7 in free homes, 9 in work homes, 1 self-supporting, 3 under the supervision of a private agency for adoption placement, 28 in private institutions, 8 with relatives, 1 in a state Normal School and 92 are under supervision in their own homes.

During this year the Children's Division has been requested to give service or make plans for an average of 14 new children each month. These requests are in addition to the continued service needed for the children already under our care and represent a very varied number of situations. Of these new cases referred for service, a total of 82 children, representing 29 families were referred by private individuals, schools, or other community agencies as being neglected children and in need of care and protection by the Children's Division. Fifty children representing 26 families were brought to our attention by their own parents or relatives who felt that they were no longer able to care for their children themselves because of various kinds of problems within the family. We had 6 delinquent children referred to us for care, 7 requests from other counties or agencies for studies of families now living in Ulster County, and 13 adoption studies requested.

Out of this total of 167 children who were referred to us during the year, it was found necessary to place only 16 children in foster homes, 2

in work homes and 5 in institutions. 20 children were accepted for supervision in their own homes. Situations involving 36 children are still in the process of investigation to determine what plan will be best for the families and children involved.

During the year 56 children were discharged from care completely, and 13 were returned to their own homes or the homes of relatives but continued under the supervision of the Children's Division.

We have 65 boarding, wage and free homes in use in the county and during the year received applications to board children from 43 new families. Of these applications, 7 homes were certified and used for foster children.

The account below indicates the amount of money expended for the purpose of providing care for the children of Ulster County who could not be cared for in their own homes.

Appropriation		$ 50,713.83
Overdrafts in Children's Account beginning November 1, 1945	$ 4,617.16*	
Paid for Board of Children	46,986.71	
Paid for Clothing	11,024.71	
Paid for Medical Care	894.48	
Paid for Dental Care	463.50	
Paid for Hospital Care	593.50	
Paid for Incidentals	995.38	
Paid for Other Expenses	402.55	
	$ 65,977.99	
Credits—Money received from Children's parents, others responsible for them, and other welfare districts	7,324.65	
	$ 58,653.34	
Overdraft 11/1/46		$7,939.51**

***Note:** Original overdraft of $4,617.17 is less than overdraft shown at conclusion of 1945 annual report by $684.05. This is due to the fact that the accounts of the Children's Division include payments made on

November 1st for the month of October, whereas the County Treasurer's account include payments made on November 1st in the following, rather than the preceding fiscal year.

**Note: This overdraft figure of $7,939.51 is greater than the overdraft shown by the County Treasurer's accounts by $398.03. This again, is due to the fact that payments made on November 1, 1946 are for the month of October, 1946, and the Children's Division accounts include these in the 1945-1946 fiscal year.

Administrative expenses for the year have amounted to $6,496.25 for salaries and $2,319.43 for travel expenses. The State is now reimbursing 80% of the salaries of Workers providing the Workers meet the necessary qualifications of education and experience for the positions.

Throughout most of the year we have had on the Staff three Junior Child Welfare Workers. In addition to these Workers, we have had a full time Acting Supervisor who has been loaned to us by the State Department of Social Welfare and whose salary is paid in full by the State. This Worker was loaned by the State only on a temporary basis and it will soon be necessary to employ a properly qualified person for this position on the permanent county staff.

I would at this time suggest that a Case Supervisor, a Senior Social Worker and one more Case Worker be employed for the Children's Division. With the present Staff, it is impossible to give adequate attention to the children in foster homes and at the same time to keep in touch with their own families, study the situations of children reported as neglected throughout the county, do the adoption studies required by the Court and handle all the many requests for assistance which come to this office. One phase of the work which suffers particularly from our lack of adequate Staff, is continuing contact with the parents of the children taken in to foster care. This means that some children are not returned to their own homes as quickly as they should be and that, where children remain in foster care, we cannot give proper attention to the following up payments which should be made to those responsible relatives who should be able to contribute to the cost of care of the children.

It is of greatest importance that we render the best possible care to our children who, through no fault of their own, cannot be cared for in their own homes. By doing this we can help to build future citizens who will be an asset to themselves and their community. If we do not give adequate service to these children, we run the very real risk of allowing many of them to become permanent liabilities to the community, both financially and socially.

Respectfully submitted,

A. D. KNIFFIN,
Commissioner of Public Welfare.

ANNUAL REPORT OF THE ULSTER COUNTY TUBERCULOSIS HOSPITAL FOR THE FISCAL YEAR ENDING OCTOBER 31, 1946

To: Dr. Frank B. Seeley, President, and to the Board of Managers of the Ulster County Tuberculosis Hospital.

In presenting my annual report for the 15th year for the hospital, I might state that it is concerned not only with the medical work but also with the recent legislation that has been enacted during the past year.

Chapter 999 of the Laws of New York State initiates a program of State-aid to the County and City Tuberculosis Sanatoria that will assist us financially in carrying on and extending the program which is aimed at attempting to eradicate tuberculosis in the State by 1965.

It is "an act to amend the Public Health Law in relation to providing more adequately for the care and treatment of persons suffering from tuberculosis."

It is a separate act which extends this State-aid to those institutions approved by the State Health Commissioner, to the amount of 50% per diem net cost not exceeding $2.50 per patient per day.

In order to obtain this reimbursement it is necessary that our County Board of Supervisors make application to the State Commission of Health who shall require certain information on prescribed forms submitted by him. This act also provides that any county may transfer its hospital to the State including the title to the property and all lands, building, equipment, etc. without cost to the State. It also allows the State Commissioner of Health if he later determines that it is no longer economical or advisable to continue operation of said hospital to turn it back to the County.

If a County has an obsolete or poorly equipped institution or if the operating costs are over the $5.00 per day which is the upper limit for receiving reimbursement, it would seem wise to consider relinquishing or transferring the hospital, but in our case with a modern institution and a reasonable operating cost it would seem more expedient at this time to retain possession of our Ulster County Tuberculosis Hospital. The County would be required to pay the remaining 50% per diem cost, as the Law now provides, whether the County or State continue operation of the institution.

Our members of the County Medical Society have always extended their professional services to patients at the Sanatorium and the moneys expended by the hospital for wages and supplies now remain in our own community.

With the rising costs of food, fuel and other operating costs, we can only estimate the amount of State-aid from our average number of hospital days service. The amount of $35,000 to $38,000 might be considered as a probable figure for State reimbursement. The Law is, primarily to afford more adequate care to the tuberculosis but it should be of benefit to both patients and taxpayers.

My report of the medical work is as follows:

The x-ray surveys in the County that have been sponsored by the Ulster County Committee on Tuberculosis and Public Health have been of great value in the discovery of cases of tuberculosis, as well as, assisting in the diagnosis of other heart and lung conditions. Nearly 7,000 persons have been included in this program and Miss Murphy and all persons who assist in this work should receive recognition for their contribution to the Public Health program. Christmas seals sales surely deserve public support.

The County Sanatorium has been untlized to over 90% of its capacity with 17,745 hospital days service.

1964 patients were x-rayed at our clinics and 2454 x-rays were taken.

35 new cases were discovered.

33 old cases were discharged as healed.

At present about 90 cases are under active treatment and a total of 451 cases are under treatment or periodical x-ray check-ups in the county. Clinic reports are sent, in the cases of patients who are in their homes or discharged to their homes, to the family physicians in attendance.

Since the outbreak of the last war, our cases for thoracic surgery have been transferred to Homer Folks Tuberculosis Hospital at Oneonta. Previously, all necessary surgical proceedures were done by Dr. Jacobson in Kingston and the patients were able to remain in their own vicinity and receive excellent surgical service. We are deeply appreciative of the splendid co-operation and the many courtesies extended to us by the Homer Folks Hospital staff but also realize that their district may give

them enough surgical cases for that institution to care for. We hope now that Dr. Jacobson's skill is available that a well balanced surgical service can be developed, with the assistance of other competent surgeons and anesthetists in our own County.

With the indorsement of the State authorities, we are considering the employment of a Rehabilitation and Occupational Director. This qualified person would guide and advise discharged or arrested cases in obtaining necessary training, through State assistance, which would fit them for work suitable to their physical condition. It would enable these patients to become self supporting and resume their position as wage earners. In addition to the field rehabilitation work, this officer would also carry on a program of some occupational therapy in the hospital. Several years before the war, we had a trianed worker in the Ulster County Tuberculosis Hospital who instructed patients in various kinds of out-patient therapy. This has been discontinued and is sorely needed for patients who must spend many weeks or months confined to their beds. It is a worthy project and the Ulster County Committee on Tuberculosis and Public Health have assured us of financial assistance in the program.

Once more, as I have in the past 15 years, I wish to extend my thanks to my co-workers at the hospital. To Miss Elizabeth Kraus, our Superintendent of Nurses, and her nursing staff; to Mrs. Mary Weber, Institutional Manager, and our employees in all departments, I feel deeply grateful for their loyal service.

In conclusion, may I ask for the continued co-operation and unselfish interest that the Board of Managers and the County Board of Supervisors have always displayed in the administration of the County Sanatorium. Twenty years ago our annual death rate in Ulster County was at the rate of approximately 110 per 100,000 population. In the year 1945 our death rate was approximately 25 per 100,000. This decline is very encouraging and it would seem that our work has paid good dividends in lives saved, and in a greatly lowered incidence of tuberculosis in Ulster County.

Respectfully submitted,

FREDERICK W. HOLCOMB,
Superintendent.

ANNUAL REPORT OF THE PRESIDENT OF THE BOARD OF MANAGERS TO THE ULSTER COUNTY BOARD OF SUPERVISORS FOR THE YEAR ENDING OCTOBER 31, 1946

Gentlemen:

Bringing to your honorable body the annual account of the managers of Ulster County Tuberculosis Hospital, I wish to express first of all our sincere appreciation of the uniform kindness and co-operation of your Board in carrying on the work committed to our hands. Your confidence and interest have been a constant source of inspiration to the Board of Managers and have made our task a real joy in service.

During the year the Board marked with deep regret the passing away of Mrs. George Washburn, who has ever been a devoted friend of the hospital, following her magnificent gift of $18,000 for the Nurses Home, with continued interest and service.

Contending with adjustment of nursing hours to an eight-hour schedule, together with the alarming dearth of nurses for the equipment of all hospitals, Miss Kraus, Superintendent of Nurses, has rendered outstanding service at great sacrifice of time and talent. We wish to express our appreciation of her untiring and efficient service.

The medical service, under the skilled direction of the Superintendent, Dr. Holcomb, assisted by Dr. Josephson, speaks for itself in pride and appreciation by the Board.

The business management of the hospital under Mrs. Mary Weber has been faced with acute problems in connection with food and its increased cost. That the total cost of operation, as appears in the appended complete financial report, has been kept at approximately the figure of last year, in spite of increased prices and fewer number of hospital days service, is due to the exceedingly wise management on the part of Mrs. Weber, whose skilled services merit the thanks of the Board.

Our chef, Henry Geschwinder, is deserving of our thanks for efficient and loyal service together with the entire personnel of the hospital, all having rendered willing and efficient service.

We would express to Mrs. Holcomb our appreciation of her active interest in the work of the auxiliary of the hospital, especially recognizing the great value of the movie entertainment for the patients, funds for which have been largely secured through her personal efforts, as well as, the funds for the patient's Christmas party.

The surgical cases have, in the absence of Dr. Joseph Jacobson, been sent to the Homer Folks State Tuberculosis Hospital at Oneonta at a cost to the County of $1,262.50. In this connection we wish to note the great service in lung surgery rendered to the County by Dr. Jacobson previous to his entering the service of the Navy in World War 2 at not one cent of personal remuneration. Now that he has returned to service at home, the management desires to place him on the personnel of the hospital as Thoracic Surgeon at a beginning salary of $1,000, only a token recognition of his valuable services.

The new New York State laws concerning County Tuberculosis Hospitals requires a full-time resident physician, which will necessitate adding to our budget an item of at least $1,000.

Bills payable, itemized below, amount to $4,300, which are as follows:

New automobile	$1,800
New X-ray equipment	2,000
Oxygen equipment	500

Increased salaries of nurses must be made. Supplies will cost at least $1,000 more, and hospital service for surgical cases will add $500 to our present expenses. All together, our budget for 1947 will amount to $86,000. We should receive State aid, on application of your Board, on the basis of this year's total hospital days and per diem cost of $4.34 of approximately $35,000 to $38,000. This will require our asking your Board for an appropriation of $48,000 or $20,000 less than last year.

The Board is co-operating and accommodating the hospital to the New York State laws governing the operation of tuberculosis hospitals and the Superintendent, Dr. Holcomb, in his report to you will give a fuller and more detailed statement of this co-operation.

With renewed expression of appreciation of the interest and co-operation of the Board of Supervisors.

Respectfully submitted,

F. B. SEELEY,
President, Board of Managers.

ANNUAL REPORT OF ULSTER COUNTY 4-H CLUB WORK FOR THE YEAR 1946

1946 Accomplishments

Unless a person is close to youth in a rural area, many accomplishments can go unnoticed. Unless a person visits with boys and girls, their parents, the church organization, or the school teachers, they could not listen to words of praise given our 4-H rural youth. Many of our pro-

jects are worked on as daily routine chores and the person passing by would see little or no activity. The girl works on her dress in the home, she helps her mother prepare food in the kitchen, she rearranges her own room and works up and practices her demonstration behind closed doors. The boy just goes on about his chores without any ado. His wearing apparel is no different from the men folks except a few sizes smaller, yet his eyes is on his calf, or his heifer. If his cow has come into production, no one can read his mind as he calculates pounds of milk, butterfat, per cent of protein feed, pounds of hay while milking. He trains his animal to show without an audience. He helps his Dad in the barn, the garden, the fields, and with all the other livestock as a smaller unit. However, the County 4-H Club Agents see all of these labors and recognize them as accomplishments. The public is only made conscious of the work of 4-H Clubs at Fair time, Demonstration Days too give some parents and a few close friends a chance to see their Achievements. Dress Revues give a few more an idea of our girls' ability to make very serviceable and presentable clothes.

Even though 4-H publicity tell of many accomplishments, activities and achievements, no one can properly evaluate boys and girls 4-H Club work to its proper value. One can visit a moment with the County Judge about Juvenile Delinquency and hear the Judge say rural youth seldom and in some counties never come in his office for a correction lecture. Few Judges offer the explanation that rural boys and girls are too busy to get into trouble. One Judge in New York State spoke at a County-wide Achievement Day. The Club Agent gave the Judge one boy's Achievement letter telling his routine chores of raising and training a heifer, raising two pigs, helped in the garden, in the fields and helped look after 500 hens. The Judge read this letter to the audience, looked up, gave forth a grand smile, hesitated, and then said—"I wonder how this 10 year old found time to do all these things." This Judge was Ulster's Judge of Children for Ulster County, the Honorable Judge John M. Cashin.

Some evening during the year, someone may be passing a Grange Hall or a school building and say, wonder what is going on in there. Unless they made the effort to come inside, they would not know a County-wide Older Youth Party was being held. Party, yes, and yet during the evening these older boys and girls hold a business meeting, plan more programs, learn social and square dancing, recreational games besides meeting other boys and girls. Many times these older youth meet lifetime friends and even partners at these get-togethers.

Dairy 1946

The Holstein Breeders of Ulster, Sullivan and Orange Counties continued their interest in our 4-H members by arranging for and holding a Spring Calf Selection Day at Walden and a fall day at the Eller Farm at New Paltz. Many breeders, too busy to take their calves to Walden or New Paltz, arranged with the 4-H Club Agent to have the 4-H member call at his farm. This year 20 calves were sold to the boys and girls. Purebred calves were offered at reasonable prices to 4-H members who could offer credentials as to capital, hay, grain, pasture and the desire to

become a Holstein breeder. Here through the number drawing system the 4-H members selected and paid for their calf and took it home. However, most breeders would rather meet the 4-H members, have a chat with them, invite the member to his farm, discuss records, breeding, etc. In this way, a closer business and closer personal contact can be made.

This year our local Ulster County Fair and Farmers Field Day was held. (The first since the war.) 14 members showed their calves. Of the 14 calves, 6 were worthy of a blue ribbon, 6 a red and 2 a white. A neighboring County 4-H Club Agent judged, so both boys and girls and 4-H Club Agent were of the same mind. And too, the group award system was used. This dairy animal show was the best Ulster has ever seen. A silver loving cup was given the boy with the best shown calf, best barn records and best personal appearance. The Showman Contest had everything an amateur show ever had. One judge took time out to give some patient words of advice.

Garden 1946

Gardening and gardens to 4-H Club work are like our poor relation and taxes, we always have them. Yet, to change this axiom a bit and say gardens and 4-H work go together, help feed our poor relations and help pay our taxes, no doubt the axiom would mean something complimentary.

Most 4-H members and their families had fine gardens this year. The lessons learned during the war years paid large dividends. Competition of judging and demonstrations has been slow to gain our previous record of popularity because the 4-H Club Agent could not find time sufficient to start and train a new group of garden minded boys and girls into the work. Our local county fair vegetable exhibit was good, yes, very good. Our boys and girls lost a lot in not being able to judge and demonstrate at the fair and go on into out of county and state competitions.

Poultry 1946

Dairy and poultry projects, interest and work are about on a par. Poultry work this year has been upset beyond imagination by high prices, demand, no demand, high feed prices, high and low egg prices, by the shortage of feed. Many boys and girls sold their flocks to the butcher for the high dollar. Some kept on with theirs and then were forced to sell because no feed was available.

Our fair had a few exhibits. The reports on completion records show perhaps the best figures on income over costs in the history of 4-H Club

work in the County. It will take years to get these boys and girls to understand 1946 poultry prices happen in a life time.

Demonstrations were few in number but excellent in quality. Our specialist was pleased with our efforts. Besides Egg Candling and Judging, our demonstrations were specifically Rat Control, Keeping Records, and Trap Nesting.

Other Agricultural Projects 1946

Beef Cattle came to 4-H Club work this year. One boy started with a steer and ended with a lot of accomplishment. Starting to train his steer late (June), it appeared hopeless. Determination, patience, and a chain throated show halter won the steer over to the boy's way of thinking. Baseball, movies and the 'ole swimmin' hole were passed up to teach Blackie (Briarcliff, the 4th). By August Blackie and Chick were pals. They were at the fair and they won much applause in the show ring (dairy), as well as ribbons, awards and a trip to Dutchess County. Here the two carried on to second place for a few minutes in a ring of ten steers. The final placing put Blackie and Chick in their place. After the auction, figures helped Chick's animal loss.

Bees, rabbits, horses, farm work, pigs, field corn, etc., etc., were good. These projects minor though they be, to some boys and girls are major because they were the only possible entry to 4-H work. These entries encourage and build more and better 4-H members.

Homemaking 1946

In Ulster County all club work is pointed toward helping youngsters appreciate to the fullest their environment and to take advantage of the opportunities they have. In this way we feel we can help them in to more intelligent adjusted citizens.

How have we gone about developing these qualities this year in the homemaking program? We offered information and training for 2 foods, 2 clothing and one home improvement projects. Because local leaders are ones who influence club members it seems that leader training schools are of utmost importance. Where held in the County, and through them 80 per cent of the homemaking leaders were reached. At the training schools better methods of working and teaching were presented by Cornell Specialists and leaders were exposed to nutritional and fashion information. These leaders went back to their clubs with new skills, new ideas, and renewed interest; and set about teaching girls (and boys) to make Good Breakfasts, Quick Breads, and the fundamentals of cooking. They

taught beginning sewing and how to remodel garments. They also helped youngsters make their homes more attractive. All these things were accomplished at regularly held work meetings. I think you'll find that at the meetings youngsters were learning parlimentary proceedures how to plan a program and ability to express their thoughts about questions concerning the group.

We held 2 demonstration days. 38 youngsters stood up and demonstrated something that they had learned and wanted to show someone else. 5 of these demonstrators went on to district demonstrations contests. We have no record to show how many demonstrations were given at club meetings, grange meetings, and other public gatherings, but we know they are being given quite often.

We held a County Dress Review, 36 garments were modeled; 6 girls modeled again at District Review, and 3 of these went on to State Reviews.

The County Fair was one of the big events of the year and the youngsters seemed glad at the opportunity to exhibit the articles they had made. There were 177 individual homemaking exhibits, the biggest group being clothing, and 8 booths prepared as club projects.

What was achieved? That is answered partly by the statistical report which tells how many thousand of meals were prepared and garments made, but to elaborate, one needs only to read the letters received from club members included in the section of this report under Achievements —Homemaking.

Achievement Night

Ulster County held two achievement nights this year for the purpose of publically recognizing the progress of the 4-H Club boys and girls made during the past year. In October, Club members and friends gathered at Kingston for the first of these programs. Myron Boice, who has just completed his 11th year as a club member was Master of Ceremonies. The Honorable John M. Cashin, chief speaker of the evening, gave a challenging talk on the possibilities of club work and some of Ulster's achievements. Movies, educational and entertaining were provided and shown by the Central Hudson Gas and Electric Corporation, after which Key Banker, Frederick Terwilliger presented achievement emblems and certificates. A good rip-roaring cheer by each club showed everybody who was there. Group singing added to the fun of the evening.

Later in the fall club members from the southern end of the County gathered for a similar achievement program for their area. Natalie

Davenport and Frank Coddington, club members for 4 and 3 years respectively conducted the ceremony which followed the pattern of the Kingston meeting.

Total attendance for the two events was 425, 36 out of 45 clubs were represented. The programs did a good job in summing up the work done during the year and I believe, in challenging the youngsters to do a bigger job in the coming year. However, because of the difficulty encountered in getting any large number of folks to any central meeting, it seems adviseable for another year to plan to hold more achievement programs for smaller areas. This should make it possible for more parents and interested adults to attend the meetings, which would be one more way of making club work a stronger factor in our communities.

At each of the Achievement Nights, an Executive Committee member spoke a few words.

1946 Summary

4-H Club work is always successful. Some boys and girls attain higher goals than others. A garden maybe a total loss yet the 4-H member learns the cause of the loss and corrects it the next year whether it be dry weather, weeds, or insects. The making of a dress that just does not get in the blue ribbon is giving valuable experience because the criticisms are always explained.

The dairy calf that didn't grow according to 4-H standards has its feeding program changed and almost immediately improvement is noted. Each project result is a success, yet always, it could have been improved upon.

1946 was good to Ulster's 4-H boys and girls. Opportunities for demonstrations, show, fairs, and earning from their efforts encouraged boys and girls to carry on with their 4-H projects. The fair, the first in 3 years gave $1,731.60 to our boys and girls.

1946 brought most of our service members back home. Many have stayed home, some entered the business world and some continued their schooling.

1946 is a good year to remember in Ulster's 4-H Program.

1946-47

4-H Club work has been carried on for a long time. in most of the states and counties of this country. 4-H Club work has been conducted

by the project method. The motto, "Make the Best Better" has been good. It still is, how many people have really done much about it other than letting Mother Nature provide the weather and elements to grow a better beef, shear better wool, grow better cotton or afford better living conditions and setting a Standard of Living. Very few agents have had the time to impress on youth, the motto, to such an extent that youth reacts by trying to figure out and easier way to achieve goals and enjoy a better life. Most folks go outdoors early in the morning in zero weather in their nightshirt to split kindling so they can dress by a warm fire. Their fathers did that so did their grandfather. Why should they change? Why! because there is a better method of providing early morning heat and because youth reacts quicker than adults, learn a better method should be the slogan of any club agent whether it be providing heat in the home, growing dairy calves, baking bread, preserving food and thousands of other Farm activities.

Better methods does not apply to electricity alone. It applies to all of us, either while awake or while sleeping. Better methods will bring about thought on everything anyone does. The Westinghouse people say "Electric", a club agent should say "anything" and thereby bring about easier and shorter hours of chores, better livestock, crops, homes and farms. Most important, less pain, sorrow, cripples, cost, etc. and etc. with better methods for safety. More leisure, less fatigue, more happiness will come by approaching everything we do with a thought such as— "How can I do this with a better method." Such a thought will bring stronger 4-H club work in any County. It will enrich the glamour of an exhibit which tells a better method of doing an old task.

Better methods will be studied and practiced in all projects, minor or major from this year forward in Ulster County. Ulster's Executive Committee has convinced their Board of Supervisors that our 4-H Club work must have an Assistant 4-H Agent, so that the Homemaking projects (agricultural too) can be done with Better Methods. Also, the added personal will allow the present agent more time for administration, for home and for farm visits. The agent, with the 4-H member, will work out better methods. This is also true with the homemaking projects and girls.

To tabulate a program of projects is simple. To work out better methods in all projects isn't too hard, yet everyone will gain.

Homemaking Outlook 1946-47

In 1946 Ulster County lost a Club member, of course that has happened before, but this member wrote to say, "I'm quitting 4-H club be-

cause my mother can learn me the same things." This has become a challenge. The goal of the 1947 Homemaking Program is to make every 4-H meeting so chuck full of information and interest that all the youngsters will some to feel that the 4-H program is an essential part of growing up.

To do this, it will be necessary to get more leaders to attend training school. If leaders can go home, bristling with new ideas, better methods; and knowing how to present these to youngsters, club leadership should improve.

Parliamentary proceedure is to be stressed. Many adults don't know how to transact business and that is a real handicap to anyone living in a democracy. There's no excuse for it. Through well conducted business meetings Ulster County girls should learn proper procedure.

The 1947 program offers a good variety of projects in foods, clothing and home improvement. Through these it is hoped that Ulster County girls will be able to learn new skills, improve old ones, and discover better methods for any undertaking.

With these good projects, social activities, with better leadership it is hoped to end the year with, to stimulate all the girls to learn something that they can take home to teach their mothers.

There will be a dress review to challenge our girls to put their "best foot forward", along with their best dress; demonstration days where they may gain confidence in themselves and a fair where they may show the people of the county what they have done.

With these county activities, our good projects, and with better trained leadership it is hoped the year will end with all girls stimulated by the things they've learned and able to take something home to teach their mothers.

Reports of Committees

REPORT OF COMMITTEE ON COUNTY OWNED TAX SALE PROPERTIES

At a meeting of the Board of Supervisors held on January 11th, 1946, a committee was appointed to study the situation regarding properties which had been acquired by the County at various tax sales.

Your committee reports as follows:

Your committee in company with the County Attorney visited the State Department of Audit and Control and conferred with one Clarence Chamberlin, specialist in tax matters. After going over the situation in great detail, it was suggested that the committee visit other communities, among them being Binghamton in Broome County and Elmira in Chemung County, to ascertain and study methods employed in those communities that had a situation similar to ours.

The entire committee was unable to visit Elmira but the County Attorney did make such a visit and reported to us that the methods employed in that community were what is known as Proceedings in Rem under Section 165-a of the Tax Law of the State of New York. This is a rather involved and complicated method of disposing of properties, but has certain advantages.

Your committee on its visit to Binghamton, Broome County, ascertained that several years ago a committee known as Tax Arrears Committee was appointed by the Board of Supervisors pursuant to the provisions of 96-b of the Tax Law.

In substance, this committee which is composed of three county officials view the properties owned by the county, ascertain the assessed valuation and the amount of taxes accrued including penalties and interest. This committee ascertains the present value of the property and a notice is inserted in the local official newspaper and a hearing held at which any-

one interested in any parcel may give testimony concerning the value thereof. After hearing, the Board of Tax Arrears determines upon that amount the property should be sold for and anyone desiring to do so, may purchase the property from the County at that price.

Your committee also ascertained that in the County of Broome they use the method or procedure outlined in Section 169-a of the Tax Law of the State of New York, and under certain circumstances that procedure is recommended. Your committee also ascertained from these various sources that there is a tremendous amount of work entailed in pursuing any of these courses or methods and in the County of Ulster there are some four hundred parcels that have been acquired by the County over a period of years. While it is true that the County Attorney is the legal adviser of the County and as such is required to perform all legal services in connection with any department of the county government, nevertheless we feel this situation calls for additional legal assistance to the County Attorney and we therefore feel that in order to adequately prosecute these various methods that an assistant to the County Attorney be engaged at a salary to be fixed by the Board of Supervisors to serve as such assistant until January 1st, 1947.

Your committee also feels that perhaps it might be advisable to offer some of the properties on which the county now has a deed at public auction reserving the right however to reject any and all bids, such sale to be advertised in the two local newspapers giving a description of the property and the amount of tax against said property. Said properties to be struck down and final confirmation of the sale to await the approval of the Board of Supervisors. The County Attorney is given the power and authority to advertise for such sale.

The committee therefore recommends:

1. That the Board of Supervisors appoint a committee known as Tax Arrears Committee pursuant to the provisions of Section 96-b of the Tax Law and to have such powers and perform such duties as are therein contained.

2. That the County Attorney use whatever remedies or procedures pursuant to statute he deems advisable under the circumstances in order to expeditiously dispose of the properties now owned by the County of Ulster and acquired at tax sales.

3. The appointment of an assistant to the County Attorney for a period ending January 1, 1947.

4. The committee further recommends that appropriate action be taken by this Board providing for the appropriation of the salary of such assistant.

5. You committee recommends that perhaps it might be advisable to offer some of the property which the county has acquired by tax sale at public auction reserving the right however to reject any and all bids. Such sale to be advertised in the two local newspapers giving a description of the property and the amount of taxes against said property to be sold and final confirmation of the sale to await the approval of the Board of Supervisors.

REPORT OF COMMITTEE ON T.B. HOSPITAL—LABORATORY AND PUBLIC HEALTH

Your Committee submits at this time a Report with respect to the formation of a County Health District. Your Committee held several meetings with a Committee of the Ulster County Medical Society together with the State District Health Officers with relation to Public Health conditions in the County.

During the course of these meetings the question of a County-wide Health unit was discussed and met with favorable approval. Under its plan, all of the Health Agencies in the County and City would be consolidated under one Board of Health. Under legislation recently enacted, the State will contribute to the cost of operating and maintaining all health agencies on the basis of 75% of the first $100,000 and 50% on all costs over $100,000.

Your Committee is of the opinion and therefore recommends to your Honorable Body that suitable resolution be adopted creating the Ulster County Health Department effective January 1st, 1947.

	Total amount offered	$ 6,912.50

Because of the gross inadequacy of the offers made and considering the present appraised value of the properties and the future potentialities of these properties, it is believed that more substantial offers can be obtained in the future for these properties and it is therefore recommended that the following offers for the following parcels be rejected:

Parcel No.	Name of Offeree	Amt. Offered
88	Chauncey Lane	$ 810.00
111	Rita Frederick	800.00
121	Henry Brigham	300.00
72	Maxine Stephensen	20.00

The following parcels were withdrawn from sale because of redemption in full by former record owners or because of errors in descriptions: 11, 83, 86, 93, 95, 104, 107.

Since no offers were received for the following parcels, it is recommended that disposition of the following parcels be referred to the Committee on tax arrears: 2, 3, 4, 5, 7, 8, 18, 19, 22, 23, 24, 27, 29, 31, 32, 35, 38, 44, 46, 48, 50, 51, 67, 81, 90, 91, 92, 99, 100.

The Committee reports that parcel No. 122, formerly owned by one Wood, and now occupied by him, and upon which an offer was made. should be rejected because the former record owner and present occupant has offered to pay the entire amount, including interest and penalties, and your Committee feels that it is a policy of this Board that where a former owner and occupant wishes to redeem property upon the payment of all taxes, penalties and interest, that he be given that opportunity.

All parcels upon which offers were made and rejected as recommended herein, be retained under jurisdiction of this Committee for further action and report.

Your Committee further reports that if the recommendations herein made are approved, the total amount of money which will have been recovered by the County as a result of the said sale, directly or indirectly, amounts to the sum of $8,271.42.

The Committee further recommends that the amount received as a result of said sale, be credited to the returned tax account of the town in which the parcels were located.

The Committee further recommends that the County Treasurer be authorized by the Board of Supervisors to cancel all unpaid taxes, including school taxes, on the parcels upon which offers were accepted and which are on the tax rolls in the hands of the County Treasurer at this time.

Ulster County Folders

The Catskill Mountain Publishing Company printed 35,000 Ulster County folders using the same setup as 1945 with new text and new pictures. These were distributed through **94 agencies,** such as, travel bureaus, transportation companies, newspaper resort bureaus, automobile associations, oil companies and other large corporations, Chamber of Commerce and other organizations in New York, New Jersey, Connecticut, Rhode Island, Pennsylvania, Delaware, Maryland, Ohio, Colorado, Washington, D. C. and Canada and locally through the Chamber of Commerce, resort organizations, local hotels and transportation companies and local conventions. They were also used in answering 4,264 inquiries which we received from twenty-one states, the District of Columbia and Canada.

Winter Sports Folders

We distributed 7,500 mimeographed folders through numerous agencies in the metropolitan area. These folders featured the facilities at our winter sports centers of Phoenicia, Pine Hill, Ellenville, Rosendale, Woodstock and Saugerties.

New York Newspaper Advertising

Our advertising program ran from April 14 to August 18 covering Summer and Autumn activities. It consisted of 1,351 lines of advertising in the New York News, Times, Journal-American, Herald Tribune, Post, Sun, Brooklyn Eagle and Catholic News. These papers also printed

feature stories and pictures on our County and distributed our County and Town Directories through their travel bureaus.

Again this year all of our local newspapers gave us excellent cooperation through their news releases and editorials which materially helped our program.

Town Directories

This year fifteen of our communities published town directories listing information on accommodations, rates and resort facilities desired by vacationists. These directories are most important to our program for attracting people to our County and materially benefit both the County and the individual communities. Our Committee again assisted in the designing and publishing of these directories and distributed them through the 94 agencies mentioned above and in answering direct mail inquiries.

The communities publishing and distributing town directories are: Ellenville (Town of Wawarsing), Big Indian-Oliverea, Town of Esopus, City of Kingston, Town of Marbletown, Mt. Marion, Pine Hill, Towns of Rosendale, Saugerties, Shandaken, Shawangunk, the Southern Ulster Region including the Towns of Lloyd, Marlborough and Plattekill and Woodstock.

State Bureau of Publicity

In their folder, "Guide to Southern New York", the front and back covers were again Ulster County scenes and the folder contained writeups of each of the towns of the County, together with several of the individual communities and the City of Kingston. These were distributed very widely by the Bureau of Publicity and materially helped in our advertising.

In addition they sent us 243 letters from their own advertising program which we answered with our county and town directories.

Advertising Results

During 1946 we received 3,935 written inquiries from our newspaper advertising, 243 from the State Bureau of Publicity and 86 telephone calls through the Central Hudson Gas & Electric Corporation's Bureau, Kingston 1405, making a total of 4,264 inquiries during the season.

Each year since our program began in 1942 our direct inquiries have shown outstanding increases with the record breaking total of 4545 in

1945. The decrease of 281 this year shows the first indication of a changing condition and the effects of increased competition due to the ending of the war and its travel restrictions.

Acknowledgment

Our accomplishments in the past five years in establishing our program on a firm foundation have been largely due to the exceptional assistance which we have received from our public officials, town groups, organizations, newspaper editors and individuals. Also, to the 94 agencies which, without charge to us, have freely displayed and distributed our folders and recommended our County to vacationists. To all these we wish to express our sincere thanks and appreciation for their help and cooperation.

Conclusions

Our previous successes were due to our cooperative promoting and advertising in the metropolitan arer when travel reserictions eliminated distant resorts from that market.

This year we experienced new conditions, vacationists were able to travel freely and long distances and resorts from all parts of the country ran heavy advertising programs in the metropolitan papers.

Our season opened with every rental house accupied, most of them at the highest rates ever known.

Our hotels and boarding houses reported full reservations for the season with no vacancies.

Many of our people were so instilled with the idea of another record-breaking season they lessened their efforts, ignored reservations, cancelled newspaper advertisements and sat back to enjoy their greatest business.

This damaging propaganda influenced vacationists to seek accommodations elsewhere.

With the lifting of O.P.A. regulations and its accompanying increases in rates some of our resort communities, like other sections of the country, experienced a buyers' strike. Wherever rates and accommodation services were not to the satisfaction of vacationists they refused to accept them.

This created heavy cancellations and vacancies which were alleviated somewhat by "hold the line" advertisements but irreparable damage had been done.

The inclement weather of August also affected our resort business especially in the mountain areas.

Some of our towns and many well-organized houses report 1946 as their greatest year. Most transportation companies consider this year equal to or exceeding last year but on the whole our resort business was below that of 1945.

Recommendations

This resort and travel business in Ulster County's industry No. 1 having 1,200 resort places with a potential monthly revenue of 3¾ million dollars, during the summer season, exclusive of spendings for transportation, amusements and entertainment. Its success or failure definitely effects the economic welfare of our communities and every business and professional endeavor of our people.

Through our well organized promotional program we are well established to meet our future competition and obtain our share of the tourists' dollar provided we enlarge and increase our activities.

We recommend increased efforts by our communities. continuation and improvement of town directories and cooperative advertising in the metropolitan papers.

We recommend increased efforts for better transportation to all sections of the County and encouragement of air service.

We suggest modernization of our communities and resort places, the reestablishment of hospitable reception, better accommodation services and planned entertainment so as to meet the more exacting requirements of modern minded vactionists.

In order to do our part in meeting this increased competition and assist our communities to a more successful season, we recommend that $3,000 be included in the 1947 budget for our advertising program;

the additional $500 to be used for an enlarged newspaper advertising schedule.

	Total amount offered	$ 1,795.00

The following parcels were withdrawn from sale because of redemption in full by former record owners, errors in the descriptions were such that the property could not be located, because of double assessments or because the taxes for the last several years had been paid: Parcel No. 26, No. 36, No. 51, No. 52, No. 53, Nos. 56, 68, 74, 76 and 81.

It is recommended that the offers received on Parcel No. 43 and Parcel No. 44 be rejected because, since the sale, it has been discovered that these represent duplicate assessments.

Your Committee further recommends that the jurisdiction of this Committee be retained over the parcels which were withdrawn from the sale for further action and report by your committee.

Your Committee further reports that, if the recommendations herein made are approved, the total amount of money which will have been recovered by the Committee, as a result of said sale, directly or indirectly, amounts to the sum of $1,795.00.

Your Committee further recommends that the amount received as a result of said sale be credited to the returned tax account of the Town in which the parcels are located.

Your Committee further recommends that the County Treasurer be authorized by the Board of Supervisors to cancel all unpaid taxes, including school taxes, on the parcels upon which offers were accepted and which are on the tax rolls in the hands of the County Treasurer at this time.

Your Committee further recommends that the chairman of the Board of Supervisors be authorized, empowered and directed to make, execute and deliver quit claim Deeds to the successful offerees for all properties on which offers were made and accepted.

Lastly, your Committee recommends that the Board of Supervisors authorize payment of the auctioneer's fees in connection with the conduct of said sale.

Respectfully submitted,

EDWARD E. MURRAY,
STANLEY F. KELDER,
Committee.
